What were the strong points of the session?

- Latest and greatest web stuff.
- Thanks for the handouts. Real-time demo very helpful.
- Computer hookups excellent. Excellent speakers and presentations.
- This was a great session! It was the perfect level for me (elementary). While I'd been introduced to many of these methods (how to change park profiles, how to submit to InsideNPS), it was a great reminder. Kudos to Tina and Roberta for the "Fire Reporting" and FireNet projects. We can see the exciting light at the end of the tunnel!

Session Evaluation Form: Friday – 2/28/2003

- The hands on experience was helpful. The dialogue provided direction for us to move towards. The conversation and allowance for a forum after the session is always helpful and a good wrap up.
- Seeing the new websites and how to use them
- Good visual help!

What were the weak points of the session and how would you change them for the better?

- Please pass out handouts first.
- The session was a little pushed but I understand why.
